

ISAGENIX PERFORMANCE PRODUCTS **NOW CARRY THE INFORMED-SPORT CERTIFICATION**

At Isagenix, we produce products that are safer for athletes all over the world. For this reason, we are pleased to announce that the AMPED™ line (as well as other performance-focused Isagenix products) are now Informed-Sport Certified. Everyone from competitive athletes to everyday performance enthusiasts can feel confident knowing that their Isagenix products have been tested for banned substances.

The possibility of substances banned by the World Anti-Doping Agency (WADA) in sports supplements is surprisingly high. Researchers estimate that somewhere between 3-25 percent of sports products contain traces of banned substances that are not present on the label.*
