Introducing the NEW! Power-Packed Cleanse for Life Powder

With a new incredible flavour, 2- to 3-times the potency for each rare ingredient, and two new ingredients to enhance and improve your cleansing experience, your Cleanse Day just got tastier, and easier.

What's new about Cleanse for Life Natural Rich Berry powder?

NEW, STATE-OF-THE-ART MANUFACTURING AND EXTRACTION TECHNIQUES

The potency of each rare, no-compromise ingredient has been improved up to 2- to 3-times its original potency level because of the improved manufacturing and extraction process that pulls all of the phytochemical properties from the botanicals at the cellular level.

NEW INGREDIENTS ADDED

Founder and Master Formulator John Anderson added new ingredients to enhance your cleansing results naturally.

BURDOCK ROOT (ARCTIUM LAPPA): Increased amounts of burdock to help support liver health and the removal of accumulated waste products via the kidneys, skin and mucus membranes.

RHODIOLA ROSEA AND ASHWANGDHA: Two powerful adaptogens, which do exactly that - adapt to the body's needs, help harmonise the body, energise cells and increase the body's resistance to stress.

TURMERIC (CURCUMA LONGA): Traditionally used to help maintain a healthy digestive system, Turmeric has potent antioxidant activity. It supports deep cleansing and helps protect against oxidative stress.

What should I know about Cleanse for Life?

Everyday we're continually exposed to toxins in the food we eat, the air we breathe, the water we drink and the items we touch. Cleanse for Life helps give your body the nutrition it needs to cleanse itself naturally. It's designed to feed and nourish your body, unlike other "cleanses" that deplete your body with laxatives or diuretics.

When used as part of the Isagenix Nutritional Cleansing and Replenishing Program, including maintaining proper diet and exercise, Cleanse for Life helps the body better cope with stress and supports good overall health.

Cleanse for Life contains powerful antioxidants like bilberry, blueberry and raspberry, which help protect your body from free radicals and support cardiovascular and brain health.

ISAGENIX®

How does Cleanse for Life™ compare to the competition?

Unlike some one-hit-wonder juices that use a single berry as their main ingredient (goji, açai, noni, pomegranate fruits, etc.), Cleanse for Life uses a combination of ingredients and nutrients to support the body's natural cleansing process.

How can I benefit from drinking Cleanse for Life?

The continual flow of pollutants into air, water and food sources increases our risk of exposure to toxins. Our bodies are endlessly exposed to these toxins that can overwhelm the body's natural detoxification defences. A slow accumulation of toxins in our bodies may eventually disturb our natural processes. Cleanse for Life is a complex blend of ingredients that support the body's cleansing process, while nourishing it with essential nutrients.

When used as part of the Isagenix Nutritional Cleansing Program, including maintaining a proper diet and regular exercise, Cleanse for Life helps the body cope with oxidative stress and supports good overall health.

Cleanse for Life Frequently Asked Questions

HOW DOES CLEANSE FOR LIFE WORK?

Cleanse for Life is not a colon cleanse or laxative product. Cleanse for Life is different because it supports the liver and promotes whole-body cleansing on a cellular level. And, unlike other products on the market that may deplete the body of vital nutrients, Cleanse for Life actually nourishes the body as it cleanses.

WHAT ARE THE DIFFERENCES BETWEEN LIQUID AND THE POWDER?

The Cleanse for Life liquid and the Cleanse for Life powder both provide nutritional cleansing benefits with only slight variations in active ingredients. The main differences in the two formulations are the forms. Both are perfect for different lifestyles. Cleanse for Life liquid is already blended, so there is no mixing needed. Alternatively, the Cleanse for Life powder is portable; you can take the powder with you and mix it with water whenever you want. Both taste great.

DO I NEED BOTH EVERYDAY CLEANSING AND DEEP CLEANSING?

Nutritional Cleansing is most effective when Cleanse for Life is used as both a daily and deep cleanse. Everyday cleansing aids the body as it naturally removes the impurities you are exposed to on a daily basis. Deep cleansing aids in the removal of contaminants that have collected within the body tissues over time.

HOW OFTEN SHOULD I USE CLEANSE FOR LIFE?

For everyday cleansing, use 1 scoop powder up to twice daily. For deep cleansing, use 2 scoops powder up to four times daily, as part of the Isagenix Nutritional Cleansing Program.

Warning: Contains sugars. Vitamin supplements should not replace a balanced diet. Always read the label. Use only as directed.
